

Switzerland

Space Activities in Switzerland

Switzerland has a long tradition participating in space science and exploratory missions. The Swiss space industry is with 900 jobs (2500 jobs indirectly) considerable and active in numerous space applications.

ESA & National Activities: Switzerland is a founding member of the European Space Agency (ESA). The Swiss budget amounts to approximately 150 million Euros per year for its activities through ESA and approximately 8 million Euros per year for national activities. For more information contact the Swiss Space Office (see below).

Swiss participation to Horizon 2020: Switzerland is successfully participating to space activities under Horizon2020 (2014-2020) as a so-called industrialized third country. Projects from Switzerland or with researchers from Switzerland are funded nationally and amount to approximately 8 million Euros per year. The total budget for Space under Horizon 2020 is approximately 200 million Euros per year. For more information contact Euresearch (see below).
