*International Event
on Space Opportunities in H2020*

Zurich, 20 June 2018

Summary: **Info Event** in Switzerland with a focus on space. People from Switzerland and abroad will participate. The respective ministry State Secretariat for Education, Research and Innovation / Swiss Space Office and relevant Swiss and European facilitators inform interested people from the public and private sector about opportunities in the space domain with a focus on H2020 space. In a second part, a **Match Making** (1:1 meetings) will be organised to allow interested people to meet potential partners from Switzerland and abroad. During the whole day a **Space Exposition** in the foyer will be organised. The event is open to the public and the attendance is free of charge.

Organizers: Euresearch & Space Center together with COSMOS2020 and the kind support of SERI/SSO.

Venue: ETH Zurich, Campus Höggerberg (Room HCI J 4)

Date: 20 June 2018
